REGISTRATION AND PROFESSIONAL PRACTICE (RPP)

❖ Updated Code of Ethics and Rules of Professional Conduct

Taylor Rohmann, Chair of the Registration and Professional Practice Committee (RPPC), presented proposed updates to the Code of Ethics and Rules of Professional Conduct. He noted that most of the recommended revisions arose from a review conducted by a consultant as part of the Belonging and Inclusion Committee's work plan and were intended to modernize language, remove gender-specific terminology, and improve inclusivity. The Board discussed the importance of ensuring that any revised language maintained the clarity, enforceability, and legal integrity of the existing provisions. Board members expressed concern that certain updates could create ambiguity when compared to terminology that has an established legal interpretation. Following discussion, the Board agreed that additional review, including legal feedback and further consideration of proposed definitions, would be beneficial before proceeding. The item was deferred to the November 2026 Board meeting.

❖ Updated Fellow Criteria and Required Evidence

Mr. Rohmann provided an overview of proposed revisions to the Fellow designation criteria and supporting evidence requirements. Barry Billing explained that the changes were intended to improve consistency, transparency, and repeatability in the evaluation process while ensuring the designation continues to recognize exceptional achievement and contribution to the profession. Board members discussed the proposed approach and provided feedback for future consideration. The item was received for information.

❖ Change to Monthly Admission Approval

The Board reviewed a proposal to revise the admissions approval process under By-Law 20. Discussion focused on improving administrative efficiency while maintaining appropriate regulatory oversight and Board accountability. Board members considered the differences between certified and associate admissions, potential service improvements for applicants, and the importance of preserving Board involvement in exceptional or contested cases. Following discussion, the Board agreed that additional refinement of the proposal was required and

directed the Registration and Professional Practice Committee to bring an updated recommendation to the November 2026 meeting.

Board members discussed the value of periodically assessing legal service arrangements to ensure they continue to meet organizational needs and provide appropriate expertise. The Board considered the possibility of conducting a competitive procurement process and agreed that any future request for proposals should allow current legal counsel an opportunity to participate. The Board also acknowledged that organizational needs may at times be addressed through changes to assigned personnel rather than changes to legal service providers.

6035 **Moved by Micheal Mooney, Seconded by Mladen Ivankovic and Carried.**
Resolved that the Board of Directors create a working group, as defined in the Terms of Reference provided, to identify requirements for legal input, and to generate an RFP to identify and procure a legal firm for future work for OACETT.
